## **Industrial Manufacturer's Representative Specializing in Heat Transfer and Process Equipment**

### **HEAT EXCHANGERS**

- API BASCO Shell and tube heat exchangers include a full range of custom-engineered and commercial standards. Available in a wide variety of materials, custom solutions are made to meet the most stringent specifications as well as all international pressure codes. Designs include TEMA types, extended surface, hairpins, and surface condensers. [www.apiheattransfer.com](http://www.apiheattransfer.com)
- API Schmidt Bretten Plate heat exchangers include industry-leading gasketed (special and standard gaskets), all-welded, semi-welded, double-wall, brazed and sanitary. [www.apiheattransfer.com](http://www.apiheattransfer.com)
- Emmegi Inc. Aluminum Bar and Plate Heat Exchangers. [www.emmegiinc.com](http://www.emmegiinc.com)
- AXH Air Coolers Custom engineered Air Coolers. Turnkey solutions include coils, fans, drives, controls, and other components custom packaged for your application. [www.axh.com](http://www.axh.com)

### **CHILLERS AND COOLING SYSTEMS**

- Thermal Care Thermal Care is a leading manufacturer of process cooling equipment and systems offering both standard and custom designed industrial process cooling solutions such as Portable Chillers and the Central Centrifugal Compressor. [www.thermalcare.com](http://www.thermalcare.com)

### **THERMAL SYSTEMS**

- API Schmidt Bretten Thermal process systems include evaporation systems, dealcoholization plants, and pasteurizers used for thermal treatment of various liquids in all industries. [www.apiheattransfer.com](http://www.apiheattransfer.com)

### **TANKS AND PRESSURE VESSELS**

Made to order engineered tanks to comply with UL, API, AWWA, OSHA, and SWRI standards. Partner with customers to select grade, coatings, and features to meet unique specifications and demands.

### **SERVICE, CLEANING AND REPAIR**

JP Thermal represents industry leading companies who perform:

Plate heat exchanger refurbishment. This includes cleaning, dye penetration testing, re-gasketing and heat curing of all plate packs.

Patented shell-side bundle cleaning. Cleaning tube IDs using multiple methods, tube testing, plugging & sleeving, re-tubing, weld repairs, machining, restorative coatings, reverse engineering, re-manufacturing, and onsite services.
